RE: Modification of Mining Plan
Poverty Point Limestone Quarry
ACT/045/012
Tooele County, Utah

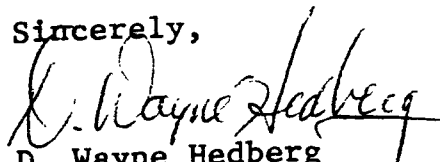

Dear Mr. Thomsen:

The Division's technical staff has reviewed your May 21, 1984 request for modification of the stockpile for the Poverty Point Limestone Quarry. As such, the Division has no problems with your request; however, to bring your plan into compliance and to be complete, the Division requests the following information:

1. Please provide a revised Figure 1-3 of the environmental assessment to show the extent of the 200,000 ton stockpile.
2. Please provide replacement text for the mining plan for those pages that refer to the 20,000 ton stockpile, with text for the 200,000 ton stockpile.

These changes will allow the Division to have a complete and up-to-date mining plan on file for the Poverty Point Limestone Quarry. If you have any questions or concerns, please contact me or Tom Suchoski of the technical staff.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Reclamation Hydrologist

COMMENTS: _____

NOTE (INSPECTORS): Please attach a copy of the NOV issued to the abatement plan when received from the operator.

NOTE (REVIEWERS): Please prepare review comments in a format referencing the appropriate regulation or statute. State the deficiency as well as minimum requirement necessary to demonstrate compliance (when possible). Also fill in the number of hours spent in review by discipline. Return the revision/NOV abatement to the Special Permit Supervisor when review is complete.
